Local Consultants to help process the needs of Harvesters and the Hungry

Since its establishment in 1999, the mission of **Adams-Gabbert & Associates Inc.**, a local and premier business operations consulting company, still holds true...to serve their *clients*, their *community* and their *associates*.

Recognizing hunger in Kansas City remains a reality, Adams-Gabbert, will provide **Harvesters**, the city's only food bank serving Kansas City for more than 20 years, with seasoned project managers and a team of process improvement specialists to box food for hungry Kansas Citians. Adams-Gabbert will operate this project on **Friday, April 7th, at 2:00 p.m.**

“As Harvesters says, ‘Hunger knows no season’, and it remains an issue in our community,” said Joe Reichmuth, Sr. Manager for Adams-Gabbert and team lead for the afternoon at Harvesters. “A key aspect of our company is focus on giving back to our communities. We feel investing community service time with our company's people, who have expertise in project management and process improvement, at Harvesters will directly improve the lives of hungry people in our community.”

The event will be held at **Harvester's** new location, located at **3801 Topping, Kansas City, MO 64129.**

Serving the Kansas City and Tampa, Florida markets, Adams-Gabbert provides business operations consulting services, and specializes in process improvement and project management. For more information regarding Adams-Gabbert or this opportunity, please contact Bob Kelly at (816) 347-0077 or at one of the numbers listed above.
